### DISPLAYS:

An exhibitor shows a display when he/she shows 7 or more birds of the same breed and variety falling under the following definition. Definition of a "Display": A display consists of seven or more birds of the same breed and variety (example: White Plymouth Rock) comprised of the following: 1 Cock, 1 Hen, 1 Cockerel, 1 Pullet & 1 Trio\*. \*If the show does not offer trios, the exhibitor may enter 3 birds of his choice.

Display awards are not chosen by the judge. They are calculated by the show management based on the judge's placements. There is a form on the following page which is designed to help you do this. Use one form for each qualifying display shown. You need not send in completed forms. They are provided to you as a tool.

How many displays were shown? 6

Display points are: 1st Place 6 Points, 2nd place 4 Points, 3rd place 3 Points, 4th Place 2 Points, and 5th Place 1 Point. For Trios, these Points count double. They are multiplied by the number of entries in that class not the amount entered.
